

# GROUP CHOICE

1

You can allow students can enroll themselves in the group you have created. **(Please make sure you have created Groups before using this function)**

To form a group, please define how many groups you would like to create

Go to Course: **Action** > **User** > **Group**

The screenshot shows the Moodle Course Administration page. On the left, the 'More...' option in the 'Legacy course files' section is circled in pink. In the main 'Course administration' area, the 'Users' tab is selected, and the 'Groups' link is circled in pink. On the right, the 'Groups' page is shown with a list of groups (Gp01 to Gp04) and buttons for 'Create group', 'Auto-create groups', and 'Import groups'. Three numbered instructions with arrows point to these buttons:

1. Create group manually in Moodle
2. Create group automatically and randomly
3. using a text file to import the groups

2

In the **Course Page**, click on **“Actions”** and select **“Turn editing on”**.

Click **“Add an activity or resource”** and select **“Group choice”**

The screenshot shows the Moodle Course Page for 'eLearning Training Workshop 10 [2017]'. The 'Turn editing on' button is circled in pink. Below it, the 'Add an activity or resource' button is also circled in pink. On the right, the 'ACTIVITIES' list is shown, with 'Group choice' selected and circled in pink.

3

-Allow the students can select more than one group

-When to show the student result

-Let student know about the student who has already enrolled into the group

-Number of student in group

-Groups for student selection

The screenshot shows the 'Miscellaneous settings' and 'Groups' sections of the Moodle Group Choice activity settings. Annotations with arrows point to specific settings:

- 'Allow enrollment to multiple groups' checkbox is checked.
- 'Publish results' dropdown is set to 'Always show results to students'.
- 'Privacy of results' dropdown is set to 'Publish full results, showing names and their choices'.
- 'Allow choice to be updated' dropdown is set to 'No'.
- 'Show columns for unanswered' dropdown is set to 'No'.
- 'Limit the number of responses allowed' dropdown is set to 'Disable'.
- 'General limitation' is set to '0'.
- In the 'Groups' section, the 'Available Groups' list contains Gp01, Gp02, Gp03, and Gp04. The 'Select Groups' list contains Gp01, Gp02, and Gp03. The 'Add Group' button is circled in pink.
