

Dear students,

As you are working on your assessment tasks in the semester, I am writing to caution you against the use of ChatGPT or other AI technologies that generate human-like essays, dialogues and images.

HKBU expects students to uphold academic integrity at all times. If a student takes words or ideas from other sources, including ChatGPT and other AI technologies, and present them as if they were the student's own without proper citation of the source(s), the student has committed plagiarism. The consequences of plagiarism and other forms of academic dishonesty include reduced or failure grades, suspension of study, academic dismissal and other disciplinary actions. For further information about academic integrity, please visit:

<https://ar.hkbu.edu.hk/quality-assurance/university-policy-and-guidelines/guidelines-for-students-on-academic-integrity>

The University regularly reviews and adjusts its pedagogies and assessment methods to promote student learning. The scope of such reviews also includes the facilitation of ethical and proper use of technologies by students to further their academic pursuit and creation. If you have suggestions and questions regarding ChatGPT or other similar technologies, please write to [vptl@hkbu.edu.hk](mailto:vptl@hkbu.edu.hk).

May I wish you a successful and fruitful semester.

Albert Chau  
Vice-President (Teaching and Learning)
