

CREATING A SURVEY IN QUALTRICS - THE BASICS

Qualtrics is a web-based survey service for all HKBU Faculty, Students and Staff to support teaching and research at HKBU. By default, survey in Qualtrics is open to anyone. The SSOid control enablement in the Qualtrics can limit the surveys to be accessed and responded by the HKBU faculty, staff, students, alumni or departmental email account only. The following shows you how a survey owner can build a survey using the SSOid login protection with different user access domains.

Get an account in Qualtrics

Log in to Qualtrics

Use your SSO login with the following link:

<https://chtl-bu.hkbu.edu.hk/qualtrics/>

Click **Login to Qualtrics**

Set Time Zone and Language

Click your profile icon, select **Account Settings**

Change time zone

UTC +08:00 - Beijing, Hong Kong, Singapore, Taipei

My First Survey

How do you want to start your survey?

Create a blank survey project

Create project

Cancel

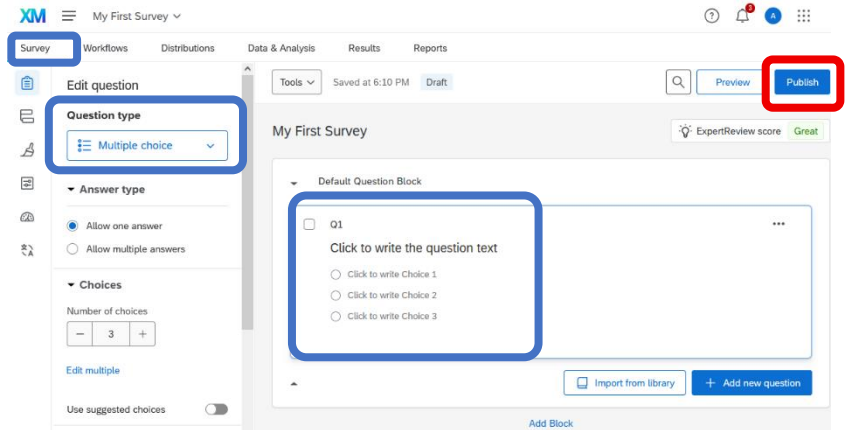

Enter the **Name** of your survey and click **Create project**

Build your survey

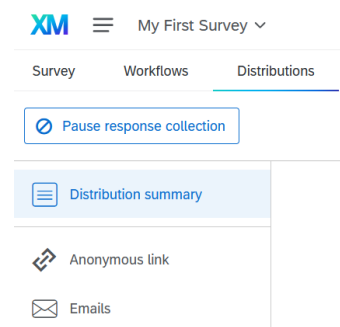

In the **Survey** builder tab:

- Click on Question 1, select the question type (e.g., Multiple choice).
- Enter the question text and options.
- Click **Add new question** for additional questions.
- Click **Preview** to review your survey.
- Click **Publish** for generating a distribution link or email for next step

Tips: All changes in the survey will be saved automatically. However, you **MUST** click **Publish** to publish the changed content to participants.

Distribute your survey

Switch to the Distributions tab and choose a method

You can select **Anonymous link** or **Emails** according to your usage

Get an anonymous survey link

Paste this reusable link into emails or onto a website; it can't be tracked, and can't be used to identify respondents

https://hkbucht1.qualtrics.com/fe/form/SV_dm5HPP9NT

Read-only

Copy survey link

Distribute your survey via email.

Compose Email

Anonymous link

You can post the link on the website or send it out through your own email

Emails

You can also compose email through Qualtrics system. Detail in next part.

Email Distribution

Clicked **Compose Email**

Edit the email subject and content and schedule the email.

You can create a new email list or send an email to an existing email list to distribute the survey.

Tips: The following text highlighted in blue under message is the individual link of your survey that it **CANNOT** be deleted

Follow this link to the Survey:

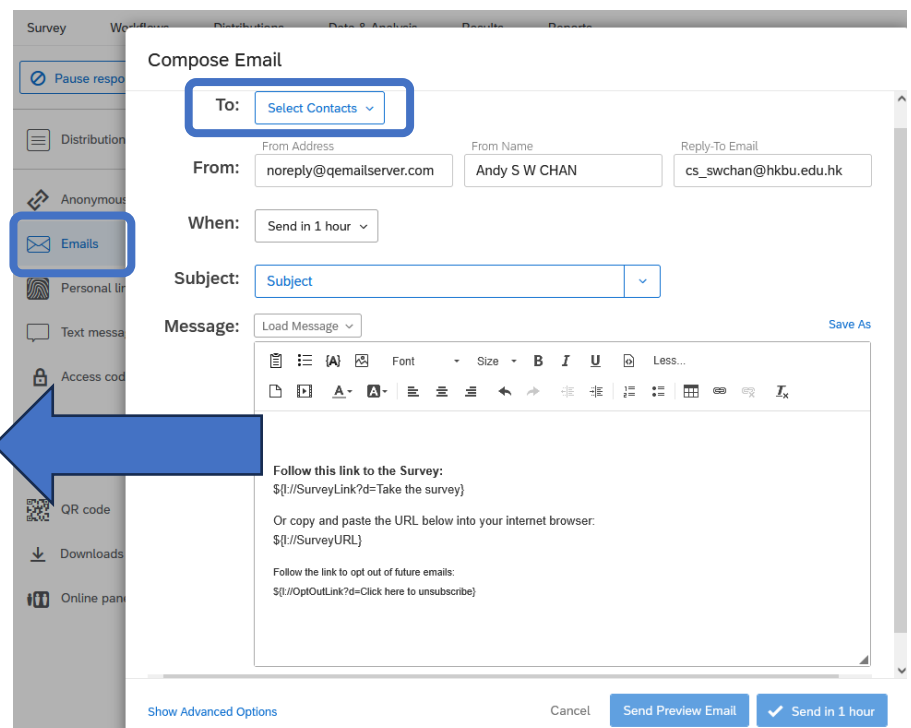

[\\${!://SurveyLink?d=Take the survey}](#)

Or copy and paste the URL below into your internet browser:

[\\${!://SurveyURL}](#)

Follow the link to opt out of future emails:

[\\${!://OptOutLink?d=Click here to unsubscribe}](#)

Create a New Contact List

Click **Select Contacts** next to **To:** field and click **+New Contact List**

Create Contact List

Name
New Contact List (6/2/25 7:50 AM)

Click **Upload a file**

Download the sample template (.csv file), and fill in the details (e.g. FirstName, LastName, Email

Contract List is looking a bit empty.
Get started by adding some contacts.

Upload a file
Add contacts by uploading a file from your computer.

Manual input
Enter contacts manually or copy and paste from a spreadsheet.

Upload a file to Contract List

Drag or select the UTF-8 encoded file that contains your contacts. We'll check it for common errors and give you a summary to review. Correct any errors in the file, and drag or select it below again.

Once there are no errors, click **Next** to verify contact import conditions.

[Download a sample template](#)

Your file looks good! Now select **Next**

ExampleContacts.csv
[Select a different file](#)

Delimiter: Comma (,) Enclosure: Double quote

[< Back](#) [Next >](#)

Select the CSV file to upload and click the “Next” button

Confirm the import fields, click “Upload the file” to upload the email list

Select the CSV file to upload and click the **Next** button

Confirm import fields

To avoid having duplicate contacts in your directory, we'll automatically find and merge contacts with the same information in fields you've chosen in your identity resolution rules.

Your identity resolution rules:

1. **Email**
If there's no Email field, or no duplicates found, the contact will be added as a new contact.

To edit the rules, reach out to your brand admin.

Field in your file	Import as field	First contact	Second contact	Third contact
FirstName	First name	John	Jane	Alice
LastName	Last name	Doe	Doe	Brown
Email	Email	john_doe@email.com	jane_doe@email.com	aliceb@email.com
ExternalDataReference	External data reference	12345	67890	67395
Department	Private list data	Marketing	Engineering	Engineering
City	Private list data	Denver	Seattle	San Francisco
Country	Private list data	USA	USA	USA

[< Back](#) [Upload the file >](#)

Confirm the import fields, click **Upload the file** to upload the email list

Collect response

Switch to the **Data & Analysis** tab to view user responses

You can download the responds by clicking **Export & Import > Export Data...**

Download a data table

CSV TSV Excel XML SPSS Google Drive User-submitted files Tableau

Comma separated values

This is a .csv file that can be imported into other programs. Each value in the response is separated by a comma and each response is separated by a newline character. If your responses contain special characters and you will open this export in Microsoft Excel we recommend using the TSV export. Qualtrics CSV exports use UTF-8 encoding, which Excel will not open correctly by default.
