

SPEAKER

Kevin Henderson

Director of Digital Content and Programming for the United Board

Kevin Henderson is Director of Digital Content and Programming for the United Board, a nongovernmental organization which supports higher education in 14 countries and regions in Asia. Kevin oversees thematic and country-based programming related to digital ethics, digital education, and the growing digitalization of higher education in Asia. His role includes the enhancement and expansion of the United Board's digital capacity, as well as the development of platforms for continuous learning and engagement.

Online Forum: Strengthening the Awareness of Academic Integrity and Ethics in Higher Education cum

Scenario Development Competition Award Presentation Ceremony 2022

Date & Time : 12 Jan 2023 (Thu) 11:30am-1:00pm (Hong Kong Time)

Venue : via ZOOM

ABSTRACT

Strengthening the awareness of academic integrity and ethics (AIE) in the higher education over the globe has become an important part under the "New Normal" since the COVID-19 pandemic. To raise teachers' and students' awareness of AIE in digital teaching and learning environment, two "Scenario Development Competition 2022" for teachers and students were organised during August and October 2022. Applications received from institutions in Philippines, India, Indonesia, Mainland China and Hong Kong were required to design/develop their scenario(s) and the winning designs will be incorporated into online learning trail(s) on the "AR Trails" App for showcasing. In this forum, our invited speaker will talk about the importance of digital ethics for teaching and learning together with the experience sharing from the award winners.
